18. **Looking at Myself (LAM)** (Grades 7-12) (I recommend for 7<sup>th</sup> grade) <http://www.cfkr.com/> LAM is designed to assist students in gaining self-knowledge, this easy to use program works as a prelude to career guidance and personal growth. Students will learn to form values, make good decisions, develop problem solving skills,

improve communication skills and set goals. LAM II comes with a reusable booklet and single-use activity folder. This program meets the National Standards for school programs involving personal and social development.

19. **Major Minor Finder** (Grades 10-12) <http://www.cfkr.com/> Students will assess their own aptitudes and interests, learn about the skills and interests required for different majors, and match their results with majors that are most compatible with their educational and career interests. Students will also understand that it is THEM, not the assessment, that is making the decisions on what is right for them.
20. **Voc-Tech Quick Screener** (Grades 10-12) <http://www.cfkr.com/> The Voc-Tech Quick Screener is a self-assessment inventory designed for students and adults who feel postsecondary education may not be for them. The VTQS helps the student match interests and goals with jobs, learn about training programs and make career decisions.
